Introduction

"If The Body Of A Society's Life Is An Economy, Its Soul Is Spirituality. As Long As We Decide To Build The New Uzbekistan, We Rely On Two Strong Pillars. The First Is A Strong Economy Based On Market Principles. The Second Is An Intense Spirituality Based On The Rich Heritage Of Our Ancestors And National Values."

Shavkat Mirziyoyev

As We All Know, It Is No Secret To Anyone That Today There Is A Sharp Struggle And Competition Worldwide. There Is A Clash Of Different Interests In The World Arena. Today The World Is Changing Rapidly. Every Day, New Challenges And Tasks Are Emerging. The Global Processes, Along With The Incomparable New Opportunities For Humanity, Bring Unexpected Problems. Threats And Risks To National Identity And Spiritual Values Are Increasing. Only To Think Of Oneself, To Look At Labor, The Family Lightly, The Consumer Mood Is Masterfully Absorbed In The Minds Of People In Different Ways, Especially Young People.

Materials And Methods

In The Process Of Social Development, The Spirituality Of Man, People And Nation Changes Depending On What Kind Of Life The Society Is, While The Social Mood Of A Particular Society Depends On How Effectively The Changes And Reforms Are Carried Out, Their Concrete Results Are One Of The Legalities Of This Sphere.

Results And Discussion

In The Process Of Optimization And Changes, Which Is A Logical Continuation Of Large-Scale Reforms Carried Out Based On The "Uzbek Model" Of Development In Uzbekistan Today, The Pace Of Spiritual And Educational Reforms Is Changing, Their Content And Social Essence And Significance Are Further Deepening. The Renewal And Changes That Began Earlier In Socio-Economic Reforms Are Effectively Continuing. In This Regard, The Strategic Directions Based On And Consistently Implemented By Shavkat Mirziyoyev, The President Of The Republic Of Uzbekistan, At The Meeting Of The Republican Spiritual Council Held On January 19 Of This Year Are Of Great Importance. At This Meeting, Shavkat Mirziyoyev Emphasized That "If The Body Of A Society's Life Is Economy, Its Soul Is Spirituality". "As Long As We Have Decided To Build The New Uzbekistan, We Rely On Two Strong Pillars. The First Is A Strong Economy Based On Market Principles. The Second Is A Strong Spirituality, Based On The Rich Heritage Of Our Ancestors And National Values." (Mirziyoyev, Ma'naviy-ma'rifiy ishlar tizimini tubdan takomillashtirish, bu borada davlat va jamoat tashkilotlarining hamkorligini kuchaytirish masalalari, 2021).

Each Direction In The Speech Of Our President Has Its Logical Basis. An Objective Assessment Of The Existing Situation On Essential Issues Related To Society's Spiritual Life Reveals The State Policy's Basics, Determined In The Appropriate Direction In Their Improvement. It Will Be The Basis For Assessing The Self-Report As An Important Document Indicating The Priorities Of The Uzbek Statehood's Spiritual Development For The Near And Middle Periods. Through This, Our State's Head Thought Both In Terms Of Achievements And Shortcomings, Encouraged Everyone To Unite In Determining And Solving Critical Issues Facing The Country And The Nation.

Every Idea Put Forward In The Report Is Extremely Important Not Only For The Future Of The Country But Also For The Solution Of These Issues. It Requires A Serious Approach With Responsibility, Which Increases Political And Economic Institutions' Responsibility Incomparably For Their Implementation.

On This Basis, Reforms In All Spheres Are Rising To A New Level, Ensuring Qualitative Changes In Spiritual And Educational Processes. The Spirit Of The Period, Permeated By Tremendous And Profound Changes, Positively Affects People's Mood, Confidence In Today And Tomorrow, Their Attitude To Life, Their Thinking And Plans. The Acceleration Of The Positive Change Processes In Our Country Confirms That Every Neighbourhood, Every Family Is A Direct Witness Of Similar Changes Due To The Consistent Reforms In Different Population Strata. Our People Know The Family As Sacred And Always Cherish It From Time Immemorial. Society Will Be More Stable When The Family Is Stronger. More Social Progress Will Be Achieved.

As Peace Is Ensured In Our Country Today, Peace, Harmony In Our House Is Directly Related To The Healthy Environment In The Family, Preparation Of Children Who Are On The Threshold Of Independent Life. The Whole World Community Rightly Recognizes That The Way Of Life Of Uzbek Youth Is Becoming A New Meaning. All Conditions Are Created In Our Country For The Younger Generation's Physical And Spiritual Development. Our State Is Opening The Door To Vast Opportunities For Our Youth In More Spheres.

In The Following Years, The Door Of New Opportunities Is Opening For Youth In All Republic Regions. We Also Witness That Libraries And Sports Grounds, Organized In The Neighbourhoods, Have Become Favourite Places Of Youth. At The Same Time, These Works Are Being Developed More Than Ever Before. Undoubtedly, Our Children, Whose Willpower Is Strong In Such Various Tests, Become Physically And Spiritually Harmonious People.

The Government Is Opening Vocational Training Centres For Youth Which Will Be Necessary Not Only In The Neighbourhood Or School But Also In Senior Life. Therefore, There Is An Increasing Interest In Learning Various Works Among Youth. Unfortunately, It Is Not A Secret To Any Of Us That At A Later Time There Began To Appear Problems In The Education Of Them, Especially Their Enthusiasm For Reading Books Has Slowed Down Somewhat. Thanks To The Large-Scale Reforms In Uzbekistan, Many Opportunities Created For Young People, And The Various Benefits Given Positively Impact Young People's Education And Performance In The New Spirit. When We Talk About Young People's Upbringing, It Is Also Worthwhile To Dwell On Some Problems Related To Young People's Spirituality, Upbringing, Hormones Concerning Their Parents, And Respect For Representatives Of The Older Generation. We Already Thought Above That There Is Still A Sharp Situation In Many Regions Of The World, And Various Conflicts Are Escalating. It Is No Secret To Anyone That This Has A Serious Negative Impact On The Minds, The Worldview Of Youth And Their Upbringing, And Spirituality. As The President Noted In His Speech At The Meeting Of The Council Of The Spirituality Of The Republic, "The Importance Of Educating Youth In The Spirit

Of Patriotism, National Pride, For This Purpose Of Teaching History Well, Expanding Scientific Research In This Direction" Was Emphasized.

"It Is Necessary To Create National History With The National Spirit. Otherwise, It Will Not Have An Educational Effect. We Need To Teach Our Youth To Learn From History, Draw Conclusions, To Arm Them With The Knowledge Of History, Historical Thought," Said Our President. (Mirziyoyev, Ma'naviy-ma'rifiy ishlar tizimini tubdan takomillashtirish, bu borada davlat va jamoat tashkilotlarining hamkorligini kuchaytirish masalalari, 2021).

Today, We Must Be More Alert In Every Issue Related To Youth Than Ever. Because Terrorism, Extremism And Other Similar Risks And Threats Are Increasing All Over The World. The Various Unreasonable Information Distributed In Social Networks Does Not Remain Without Its Influence On Young People's Minds. Of Course, We Hope That Our Compatriots, Who Read Materials That Sharply And Unselfishly Interpret The Processes Taking Place In Our Country, Filled With Slander And Gossip, Will Draw The Right Conclusions From The Above Information. First And Foremost, The Issue Of Preventing Mercenary External Ideological Pressures, One-Sided Information And Assessments Provided Under The Guise Of An Unbiased Approach To The Changes Taking Place In Our Nation, And The Quick, Systemic, And Evolutionary Delivery Of Counter-Information To Citizens Are Critical.

Since Today Information Has Also Become A Commodity Of Consumption, Everyone Should Educate Himself On Its Consumption Culture. Youth Must Have Knowledge And Skills In The Field Of Information Protection Of A Personal Nature To Protect Themselves From The Negative Information They Are Using.

In The Most General Sense, Information Consumption Culture Refers To A System Of Knowledge, Ability, And Qualification That Serves To Receive, Sort, Understand, And Interpret Information From The Flow Of Information That Serves Human Interests, Perfection, And Society's Development.

In Order For A Person To Educate Such A Culture In Himself, When He Or She Hears Any Information, At Least They Must Ask Themselves Questions Like *"Who Transmits This Information?"*, *"Why Transmits?"* And *"For What Purpose They Do"* And Try To Find A Justified Answer To Them.

Only Then Will Be Taken To Blindly Follow The Information Provided And Fall Under Different Ideas' Influence. The Message That The Formed Culture Of Information Consumption Contradicts Our National Interests And Values Passes The Role Of A Specific Shield Concerning The Information. It Ensures Stability In The Individual's Worldview And Behaviour.

Youth Can Choose The Information That Serves The National Interest In The Virtual Space, Contributing To Its Development. Only Then, In The Processes Of Globalization, The Blind Follow-Up To Young People's Information Is Taken From Them The Wrong Interpretation. They Do Not Fall Under The Influence Of Negative And Biased Information With A Culture Of Information Consumption Because A Strong Ideological Immunity Is Formed Concerning Such Information.

The Idea - *"Whoever Has The Strong Information, He Owns The World"* - Was Recognized By All Today. Therefore, The Formation Of The Qualification Of Rational Use Of The Opportunities Of The World Of Information In Youth Today Is Of Vital And Practical Importance.

Proceeding From The Above, It Should Be Noted That The Further Development Of Activities In The Following Areas Is One Of The Important And Priority Tasks Facing Our Society In The Future:

- Formation Of Social Consciousness Monitoring System In Youth Information Environment;
- Regular Increase In Media Literacy Of The Growing Generation;
- A Regular Study Of The Priorities And Interests Of Youth In The Virtual Information Space;
- Protection Of The Population From Information Damaging The Spiritual And Moral Development Of The Future Generation;
- Establishing A System Of Communicating Information Exposing The Threat Of "Mass Culture", Which Negatively Affects The Spirituality Of Youth (Akhmedov, 2021, pp. 76-77).

Unfortunately, In Some Of Our Young People Today, The Skills And Culture Of Using The Internet Correctly Are Not Enough. In Order To Properly Use The Information Provided Through Social Networks, It Is Necessary To Protect Our Youth From Biased Information That Contradicts Our National Development. We Need To Increase The Ideological Immunity Of Young People, To Provide Them With The Necessary Unbiased Information On Time Ourselves. Through This, We Can Spare Them From The Influence Of Different Bad Ideas. Today, It Is Clear That Young People Perceive The Internet As A Reliable Source For Information, Convenient For Them To Acquire Knowledge And Enlightenment. In The Conditions Of Such An Ideological Struggle, It Is Necessary For Our Youth To Be Politically Vigilant And Aware, To Think First Of All About The Interests Of Parents, Family, Loved Ones, And Most Importantly, This Country.

We Must Teach Our Children Science And Education, Support Their Aspirations. Everyone Knows The Family As Sacred, Spiritual Purity, Respect For Adults, Respect For The Little Ones, The Upbringing Of Qualities Loyal To Our Rich Heritage, National And Spiritual, Religious Values. These Positive Qualities Have Been In The Blood Of Our People And Nation From Time Immemorial. Our President Explained That We Should Preserve Such A Nation's Invaluable Heritage And Enrich It And Decorate It For Future Generations. In This Regard, It Is Worth Saying That We All Have The Same Great Responsibility To Perform Such Good Deeds In Full Without Being Indifferent To The Life And Responsible Work As Young People's Education.

Having A Correct And Unbiased Assessment Of The World's Situation, Having A Deep Understanding Of The Changes And Updates Happening In Our Country, We Must Conduct Our Mentalities On Youth's Education In A Specific And Compatible Way. We Should Use All The Opportunities Created To Preserve The Destructive And Harmful Ideas Of Our Youth Wisely. In The Education Of The Younger Generation, First Of All, All Teachers, Intellectuals Working In Educational Institutions, With A Deeper Understanding Of Responsibility Than Ever, We Must Make Every Effort To Get Rid Of The Mood Of Neglect, Apathy, Spiritual Poverty.

Today, The Content Of Our President's Direct Contacts With The People Has Changed. The Effectiveness Of Which Has Increased, 2021 Has Been Declared As The Year Of "Youth Support And Strengthening The Health Of The Population", Raising The People's Mood And Completely Changing Its Relevance To Reforms. In This Regard, In Particular, The President Of The Republic Of Uzbekistan, Shavkat Mirziyoyev, Has Been Visiting Each Territory Of Uzbekistan To Carry Out Reforms In The Socio-Political Sphere In The Localities, Get Acquainted With The Implementation Of Significant Projects. In This Process, The President Conducts The Dialogue With Representatives Of Various Spheres, Specialists And Experts. During Such Trips, Our State's Head Attaches Special Importance To People's Social Activities, In Personal Life, How They Imagine The Next Day. Being In Some Neighbourhoods, He Is Directly Acquainted With The Population's Conditions, Plans, And Life Problems. Also, Considering The Situation And Problems In Regions, What Kind Of Issues People Are More Addressing, The President Gives The Necessary Instructions, Guidance, And Instructions To Improve The Activities' Effectiveness.

In Sociology, Social Communication Is Considered The Main Means Of Knowing A Person's Mood, People, And Population To Draw Important Conclusions. In Political Science, Communication Is The Most Important Means Of Achieving Mutual Reconciliation, The Consensus Among Peoples, States, Various Political Parties, Ensuring Common Unity, Peace And Development, Political, Diplomatic Way.

It Should Be Noted That Today The Institute Of Social Communication In Uzbekistan Has Risen To The Level Of Public Policy And Has Become A Nationwide Phenomenon, Widely Used Not Only In The Field Of Foreign Policy But Also In Domestic Politics. This Phenomenon Is Widely Spread Among The State Government Agencies And The People, Among Leaders And All Population Layers, Including Youth. In These Dialogues, Responsible Employees Of Many State Organizations Answer Questions On Various Topics Of Interest To The Population, Especially Youth, Which Concern Their Vital Interests.

Naturally, These Processes Form The Atmosphere Of Open And Sincere Communication In Society, The Spirit Of A Practical Perspective On People's Life Problems And A Harmonious Approach. Most Importantly, It Serves To Raise The People's Social Mood Qualitatively To An Entirely New Level. As A Result Of Such Reforms, The Political Culture Of People Is Growing. It, In Turn, Serves To Increase The Legal Culture, Legal Consciousness Of Our Citizens. Today, People Have A High Level Of Confidence In Their Country, Its People And Leadership, An Incentive To Live On The Initiative. In This Way, Social Communication Is Becoming An Influential Tool Of Democratic Governance In Uzbekistan. This Important And Unique Phenomenon Radically Changes The Life Of Society-An An Institutional Political Phenomenon.

Since The Beginning Of 2021, The Major Events Held Under The Leadership Of The President, Shavkat Mirziyoyev – The Address Of The Head Of Our State To The Oliy Majlis, The First Forum Of The Youth Of Uzbekistan, The Expanded Meeting Of The Security Council And The Meetings Of The Republican Spiritual Council Held On January 19. It Is Necessary To Feel That At These Conferences In The Direction Of Spirituality, Actual Tasks Were Identified, And Each Representative Of The Sphere Was Assigned A Great Responsibility.

Because The Issues That Are Waiting For Their Solution Are Also Considerable, Indicating How Important Their Issues Are. Today, Every Citizen Should Realize That They Have Not Fully Understood The National Idea's Essence Until Now, Imagining The Old Ideology. Those Who Superficially Look At It Do Not Even Exist. It Is A Pity For The Nation. Therefore, Shavkat Mirziyoyev Emphasized The Main Idea Of The Ideology Of Our Country: "The Ideology Of The New Uzbekistan, Which We Are Creating, Will Be The Idea Of Kindness, Humanity And Humanism. When We Say Ideology, We First Understand The Education Of Thought And National And Universal Values. They Are Based On Several Thousand Years Of Vital Understanding And Values Of Our People," - He Said

(Mirziyoyev, Ma'naviy-ma'rifiy ishlar tizimini tubdan takomillashtirish, bu borada davlat va jamoat tashkilotlarining hamkorligini kuchaytirish masalalari, 2021).

The Idea That "Human Interests Are Above All" Remains The Core Issue Of The Reforms Carried Out In Our Country. It Is Reflected Primarily In The Laws Adopted, The President's Decisions And The Government, Decrees And Decrees. These Documents Directly Serve To Improve People's Daily Lives And Raise Their Mood, That Is, To Increase Each Person's Consciousness, Which Is Evident In Practical Life When Large-Scale Reforms Are Carried Out To Pleasing People. All These Serve To Strengthen The Legal Framework Of The Social Mood.

From This Point Of View, It Gives People The Opportunity To Form An Active Approach To Reforms, Show Their Attitude To Society, And Find Practical Ways Of Self-Realization In Interaction With The Outside World. This Approach, In Turn, Implies The Presence Of Interest In Social Work, Initiative, Diligence, The Awareness Of Personal Importance And The Ability To Organize. The Inclusion Of All Citizens In Various Types Of Socially Significant Activities Significantly Affects The Sphere Of Social Communication, The Possibility Of Mastering Social Values And Forming An Individual's Moral Qualities. Through This, The Students Form And Realize Their Consciousness, Moral And Social Relations. Moral Factors Are Essential In Developing A Morally Harmonious Personality And Active Civil Position In Creating Relations Between Man, State And Society. In Such Social Processes, Everyone Should Be Involved. A Spiritually Competent Person Does Not Put His Interests Above The Interests Of The People And The State.

On The Contrary, They Refuse Them To Ensure Social Progress And Recruit The Knowledge, Skills, And Social Stability Abilities. Therefore, Not All Qualities And Values Are Formed By Themselves In Man, But All These Are Manifested In People's Interactions. The Nature Of Human Looks Like The Various Worlds, That Is, Some Category Of People Have A High Level Of Humanism In A Kind, But There Are Some Categories Of People Who Are Extreme, Selfish, Who Thinks Only His Benefit, In A Word, In General, There Will Be Those Who Do Not Have Humanity. Individuals Of Both Categories Live And Work With You In One Society. The Main Reason For This Is That Although The Social Environment Is The Same, The Varieties Of Our Nature Can Affect Us In Another Way. Moral Perfection Prevails In The Family Where Good People Are Brought Up, Whereas The Environment In Which A Bad Person Is Brought Up Is Morally Poor.

Man's Spiritual Perfection Is Directly Related To The Inseparable Attachment Of The Family, Neighbourhood, And Society. It Is Not Surprising That Officials Say That The Main Idea Of Development Is To Work In The Community To Achieve Success In Every Field. It Can Be Seen That In A Quiet And Peaceful Family And Neighbourhood, In A Society Where People Are Valued, Brave And Noble Young Men, Chaste Girls Are Perfected. At The Same Time, It Is More Important Than Ever To Educate Young People Who Are Spiritual, Well-Mannered In Society, Whose Heart Is Full Of Noble And Noble Seeds. In Our Youth, We Must Form A Sense Of Inviolability Concerning The Motherland We Live In And General In Every Citizen, With You.

The Main Idea Put Forward By The Head Of Our State Is The Essence Of The Noble Idea Towards "National Revival - National Rise", Which Reveals That The Large-Scale Creative Work Carried Out In Our Country Is Serving Social Development. The Worldwide Changes And Updates That Are Taking Place In Society Today Presuppose The Unity Of The National Development Of The Uzbek People With Universal Values. In This Regard, The Spiritual Growth Of Society Is Evidence Of The Manifestation Of Human Qualities. In This Society At The Present Stage Of Democratic Renewal, Special Attention Is Paid To Strengthening The Rule Of Law And Legality, Ensuring That Human Value Is Above All Else. And This, In Turn, Will Undoubtedly Give New Opportunities To Manifest And Develop The Noblest, Most Noble Moral Qualities For Every Person In Society.

In Terms Of Social Progress And The Formation Of Spiritual Perfection In Society Is A Complex, Sometimes Contradictory Process That Is Not Always Measured By The Same Criteria Or Norms. It Is The Same Fact That The Manifestation And Formation Of This Do Not Always Depend On The Individual, Even The Social Environment. Each Nation Has Its Traditions And Values Determined By The Spiritual Perfection Of These People.

Indeed, Each Nation Has Its Unique Heritage, Which Has Historically Formed And Passed Life Tests. We Can See That Spiritual Heritage, National And Religious Values Have Found Their Place In Social Life, In The Spiritual Perfection Of The Individual:

Firstly, It Has Reached This Day As A Rich Heritage Created By Generations;

Secondly, The Spiritual Heritage Is Enriched Based On Science And Discoveries;

Thirdly, Religious Values Have Passed Down From Generation To Generation According To People's Consciousness And Outlook Through Propaganda Based On The Scriptures.

At The Beginning Of The 21st Century, The Development Of Society And Human Civilization Has Radically Changed. The World Community Is Rightfully Concerned About Globally Developing A Social Life, Global Risks

Such As Extremism Threatening Peace, International Terrorism And Drug Addiction, Corruption And Organized Crime, And Environmental Crisis Disruptions. In General, Such Concepts As Spirituality And Enlightenment, Culture, And Spiritual Heritage In Human Perfection Are Considered Incredibly Important. It Is A Complex Process Of Forming Spirituality Without Concepts, Bringing The Present Younger Generation To Spiritual Perfection As A Person's Component.

Gaining Social Experience On This Front, Showing Its Leadership Skills Both On The Regional, District, And Urban Scale, Will Help Implement Various Social Projects. Of Course, To Preserve The Spiritual Power And Eternal Values Of Our People And Glorify The Whole World, Our Youth Must Be Educated, Capable, Talented And Of Course Intelligent, And At The Same Time Must Be Lived In Harmony With Us.

All These Serve For Implementing The Vital Principles That "State Agencies Must Serve For Our People, Not People For Them", "If People Are Rich, The State Will Also Be Rich And Powerful" Put Forward By Sh. Mirziyoyev (Mirziyoyev, Xalqimiz roziligi bizning faoliyatimizga berilgan eng oliy bahodir, 2018).

Such Changes In Society's Life Lead To Many Updates And Quality Changes. For Example, In Celebration Of Holidays As Independence Day, Constitution Day, Motherland Defender's Day, International Women's Day, Navruz, Special Attention Is Paid To Tradition, Closeness To The People's Spirit, Sincerity Following Artistic Programs Of The People's Election.

This Goal Is Put In The Centre Of Attention In The President's Speeches And Reports, In The Opinions Expressed At Various Meetings, In All Documents Of The Signing State Significance. In This Regard, It Is Said That The Shortcomings Of The Leaders Of Some Organizations And Departments Are True. In Particular, Sh. Mirziyoyev Stated His Thoughts During His Visit To Namangan Region In January 2021: "First Of All, Some Officials Cannot Estimate Real Life And Some Extent The Lives Of The People. Secondly, A Simple Approach To Developing Concepts And Programs For Developing Networks And Territories Is Allowed. Finally, The Third Major Drawback Is That Many Managers Are Accustomed To Solving Complex Problems Without Leaving The Cabinet, Without Having A Deep Study Of How The Work In The Economic Sectors, In Each Enterprise, Cities And Districts, Especially Rural Areas, Is In Good Condition." (Mirziyoyev, Namangan shahrida xalq deputatlari viloyat kengashining navbatdan tashqari sessiyasidagi nutqi, 2021).

Due To Such Shortcomings, Actual Problems In Various Spheres Of Life Were Accumulated. Take, For Example, The Sphere Of Social Protection. It Is Known That Starting From The First Days Of Independence In Uzbekistan, Maintaining A Strong Social Policy, Material And Moral Support Of Low-Income Strata Of The Population Became The Most Important And Priority Direction Of State Policy. In This Regard, A Powerful System Was Formed. But Due To The Shortcomings Mentioned Above, Some Problems Were Also Encountered In This Area At A Later Time. In Particular, The Pension Was Paid By Full Plastic Cards, Even In The Most Remote Villages.

There Were Also Such Cases When Paying Scholarships To Students In Need Of Social Protection. Besides, The Constant Increase In The Price Of The Most Important Medicines For The Population, The Provision Of Coal To The Population, Which Did Not Reach Natural Gas, The Disruptions In Electricity Supply-All Was The Reason For The Population's Disappointments. President Shavkat Mirziyoyev Studied All These Problems In-Depth And Adopted Several Decrees And Decisions On Their Solution. More Positive Changes Were Welcomed Positively By Ordinary People, Which Causes Significant Changes In Their Social Mood And Spiritual World.

Conclusion

Meetings Of The Head Of Our State In Places, Visiting Neighbourhoods, Meeting With Ordinary People And Neighbourhood Elders, Talking With Them Heartily, Hearing People's Concerns, Improving Their Mood With Their Prophylactics And Comfortable Conditions Improve The People's Mood. It Is No Doubt That All This Is Very Important In Raising The Population's Morale, Including Youth. All Of The Above Is An Expression That Great Attention Is Paid To Issues That Increase The People's Spirit And Mood In Our Country's Socio-Political Life, Which Ultimately Serves To Raise Society's Morale. In Such A Dangerous Situation, Each Of Us Must Live With Political Vigilance And Awareness On Every Issue. It Is Necessary To Think About The Peace Of Our People, The Interests Of Our Country.
